Introduction

We are pleased to share the results of the 19th Teaching, Research and International Policy (TRIP) Snap Poll, fielded with the support of the Carnegie Corporation of New York. Our polls provide real-time data in the wake of significant policy proposals, during international crises, and on emerging foreign policy debates. In this survey, we cover a range of current global affairs topics, including the recent college protests about Israeli military action in Gaza, international trade, nuclear use, Ukraine, and the U.S. presidential election.

Methodology

We attempted to contact all international relations (IR) scholars in the United States. We define IR scholars as individuals who are employed at a college or university in a political science department or professional school and who teach or conduct research on issues that cross international borders. Of the 5,146 scholars across the United States that we contacted, 733 responded to at least one question. The resulting response rate is approximately 14.24 percent. The poll was open from June 25 to July 14 of 2024.

Data contacts: Irene Entringer Garcia Blanes. Email: irsurvey@wm.edufo

Sample vs. Population Comparison

Gender	Respondents Count	Respondents Percentage	Population Count	Population Percentage
Female	189	26.47	1596	31.57
Male	525	73.53	3460	68.43

Table 1: Sample vs. Population Comparison: Gender

Results

Nuclear use

49.93 percent of respondents were asked if Russia would detonate nuclear weapons for combat purposes in the next two years, and 50.07 percent were asked if Russia would use nuclear weapons for combat purposes in the next two years.

	Count	Percentage (%)
Detonate nuclear weapons	366	49.93
Use nuclear weapons	367	50.07
Total	733	100.00

Table 4: Respondents by Question Type

Table 5: How likely is Russia to [use/detonate] nuclear weapons in Ukraine in the next 2 years?

Response option	Detonate (Count - Percentage)	Use (Count - Percentage)
0	22 (6.23%)	19 (5.43%)
1-9	106 (30.03%)	$100 \ (28.57\%)$
10-19	108(30.59%)	88 (25.14%)
20-29	46 (13.03%)	69~(19.71%)

NATO military personnel provide air defense agains, uncrewed Russian air assets and weapons in Ukrainian airspace (i.e., destroying drones and missiles launched by Russia against Ukrainian civilian or military targets).	107 (16.77%)	195 (30.56%)	136 (21.32%)	92 (14.42%)	39 (6.11%)	20 (3.13%)	30 (4.70%)	6 (0.94%)	6 (0.94%)	4 (0.63%)	2 (0.31%)	1 (0.16%)	638 (100.00%)
Ukraine is allowed unrestricted use of Western weapons systems against targets inside Russia.	47 (7.05%)	134~(20.09%)	140~(20.99%)	104~(15.59%)	57~(8.55%)	27~(4.05%)	60 (9.00%)	34~(5.10%)	31~(4.65%)	17~(2.55%)	14~(2.10%)	2~(0.30%)	667~(100.00%)
against cargets inside russia. Ukrainian forces attack Russian nuclear forces (command-and-control systems and/or military bases where nuclear missiles are located) in Russia with conventional weapons.	27 (3.90%)	84 (12.12%)	113 (16.31%)	100 (14.43%)	67 (9.67%)	52 (7.50%)	83 (11.98%)	52 (7.50%)	47 (6.78%)	30 (4.33%)	28 (4.04%)	10 (1.44%)	693 (100.00%)
Ukrainian forces reclaim a substantial portion of territory seized by Russia since February 2022.	82~(12.87%)	172~(27.00%)	147~(23.08%)	96 (15.07%)	43~(6.75%)	30~(4.71%)	37 (5.81%)	15~(2.35%)	10~(1.57%)	$1 \ (0.16\%)$	4~(0.63%)	$0 \ (0.00\%)$	637~(100.00%)
Ukrainian forces reclaim Crimea.	53 (7.93%)	112 (16.77%)	138~(20.66%)	108~(16.17%)	73~(10.93%)	37~(5.54%)	56~(8.38%)	32~(4.79%)	35 (5.24%)	14~(2.10%)	4 (0.60%)	6 (0.90%)	668~(100.00%)

\mathbf{EV}

Respondents were split into four treatment groups and asked about electric vehicle tariffs proposed by the two presidential candidates. All four were given the same text preceding the question:

Electric vehicles (EVs) are increasingly popular in the U.S. However, the relative price of EVs remains high compared to similar traditional vehicles. BYD, a Chinese electric vehicle manufacturer, is now the world's biggest producer of electric vehicles and the world's largest auto exporter. Some BYD vehicles cost as little as \$11,000, one-fourth the average price of an electric vehicle in the U.S.

Currently, Chinese EVs - like all imported Chinese-made vehicles - incur a 27.5-percent tariff when entering the U.S. market.

Treatment 1 (24.97% of respondents): The U.S. has announced plans to quadruple the tariff on Chinese EVs, increasing the tariff rate to above 100%. Do you support or oppose the increase in tariffs on Chinese EVs?

Treatment 2 (24.28% of respondents): President Biden has announced plans to quadruple the tariff on Chinese EVs, increasing the tariff rate to above 100%. Do you support or oppose the increase in tariffs on Chinese EVs?

Treatment 3 (25.51% of respondents): If elected, Donald Trump has announced plans to quadruple the tariff on Chinese EVs, increasing the tariff rate to above 100%. Do you support or oppose the increase in tariffs on Chinese EVs?

Treatment 4 (25.24% of respondents): In response to Biden's announcement to quadruple the tariff on Chinese EVs, increasing the tariff rate to above 100%, Donald Trump has announced plans to increase the tariff rate to above 200%. Do you support or oppose the increase in tariffs on Chinese EVs?

	Count	Percentage (%)
Treatment 1	183	24.97
Treatment 2	178	24.28
Treatment 3	187	25.51
Treatment 4	185	25.24
Total	733	100.00
